DIGITAL PRINTING COLOR INFORMATION

OFFSET VS DIGITAL

Digital printing offers shorter turnaround and more consistent end result than offset printing. Digital printers do not print PMS and RGB colors. These colors will have color shifts.

SPOT COLOR MATCHING

Although digital printers do not print PMS colors, our production team will manually adjust the color output to match your spot colors upon request (per color). **Please ask us about color matching service when you upload your files. ***

Spot Colors

* No color matching for fabric

MATERIAL

Printed colors look slightly different depending on materials. Refer to the material descriptions for more information.

OUTDOOR USE

Our outdoor banners are printed with UV-safe inks to prolong the life of your banner. They are hemmed around the edges for long life and can be grommeted for easy display outside your building or event.

REPRINTING

If you are in need of graphics from your previous orders printed by us, let us know before you approve proofs. To match colors with previously printed banners, we need extra time and information from you. We typically hold files for 1 year. By request, we can back up files for future use.

FINISHING OPTIONS

GROMMETS

Banner edges are hemmed with #2 grommets in corners. Available grommet colors: brass, silver, and black.

HEM

We add a 1" bleed that is folded over and double stitched with white thread. Can be performed to entire perimeter of banner.

POLE POCKET

The top and bottom of the banner is folded over and sewn creating a pocket that accept dowels.

CLAMP

Top and/or bottom bars clamp to banner.

HOOK & LOOP

Banners attach via hook & loop strips on top and bottom.

MAGNET

Magnetic strips on sides of panels magnetically attach to channel bars on frame.

Design Examples and Time Used

Let us show you what we have done for our customers. As you can see, the more complex the design becomes, the more design time will be required. Design time differs depending on complexity of design and the types/quality of files needed.

Express 1Hour Design

- Simple layout & typesetting
 - Vector base/hi-res graphics
- Customer must supply vector base graphics (logo, image and text.)

Custom Design (2-3 Hours)

- Layout & typesetting
- Simple photo editing which includes cropping and color adjusting

Custom Design (4-5 Hours)

- Layout & typesetting
- Photo editing which includes cropping, color adjusting, and cloning
- Creating vector elements

Custom Design (6-11 Hours)

- Layout & typesetting
- Photo editing which includes cropping, color adjusting, and cloning
- About 15 photos used (provided by customer)
- Complex layered design

If you are designing...

We have layout templates available for you to download on our website. Make sure your graphics are print ready before you upload them to us. Here are some check points to do so.

1. Right Dimension?

Double-check your graphic dimension to make sure it matches the product you are purchasing.

We add bleed on our end. Submit your graphic at desired viewable size.

2. Good Resolution?

In Photoshop, view your graphic at 100%. You can see how your artwork will look when printed.

3. CMYK Mode?

Your graphic must be in CMYK mode. Colors may differ in RGB mode. Ask us about spot color matching service if your graphic has spot colors.

4. Proof Reading?

It is your responsibility to proof read all your text. Please proof read before you submit your graphic file.

We rely solely on your approval of the proof as final verification and acceptance of the project. We can not accept financial responsibility for items approved by you that may be later found in error.

We accept files in following formats:

Adobe Photoshop (flatten .PSD), Adobe Illustrator (.AI), Adobe Acrobat (.PDF), Tagged Image File Format (.TIFF), Encapsulated PostScript (.EPS), and high resolution JPG files. Any other file format will/may alter graphics.
